BOW

Honorable Rick Perry, Governor
Honorable Susan Combs, Texas Comptroller
John O'Brien, Director, Legislative Budget Board
John Keel, CPA, State Auditor

Lady and Gentlemen:

We are pleased to submit the Annual Financial Report of the State Office of Risk Management for the year ended August 31, 2011, in compliance with TEX. GOV'T CODE ANN. §2101.011, and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions regarding this report, please contact Stuart B. Cargile at (512) 936-1523.

Sincerely,

Jonathan D. Bow
Executive Director

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. ENTITY

The State Office of Risk Management (SORM) was created, effective September 1, 1997, to administer the government employees workers' compensation insurance and the state risk management programs. The functions previously performed by the Workers' Compensation Division of the Office of the Attorney General (OAG) and the functions previously performed by the Risk Management Division of the Texas Workers' Compensation Commission were consolidated to form this new agency. The State Office of Risk Management was administratively attached to the OAG so the OAG would provide facilities and administrative services for SORM. All records, equipment, and supplies in the custody of the Worker's Compensation Division of the Attorney General Office as it existed on August 31, 1997, were transferred to SORM during fiscal year 1998.

The financial records of the State Office of Risk Management comply with State statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements -- and Management's Discussion and Analysis -- for State and Local Governments, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore an opinion has not been expressed on the financial statements and related information contained in this report.

B. FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Fund

The General Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

COMPONENT UNITS

No component units have been identified.

State Office of Risk Management (479)
Unaudited

C. BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual method of accounting. This includes capital assets, accumulated depreciation, unpaid Employee Compensable Leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, and long-term claims and judgments. The activity will be recognized in these new fund types.

D. BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

E. ASSETS, LIABILITIES, AND FUND BALANCES/NET ASSETS

ASSETS

Inventories

Inventories include consumable supplies and postage on hand at year-end. Inventories are valued at cost, generally utilizing the last-in, first-out method. Inventories for governmental funds are accounted for using the purchase method of accounting. The consumption method of accounting is used to account for inventories that appear in the government-wide statements. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if any purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

State Office of Risk Management (479)
Unaudited

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that become "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is "Net Assets" on the government-wide and fiduciary fund statements, and the "Fund Balance" is the difference between fund assets and liabilities on the governmental fund statements.

Fund Balance Components

Fund Balance for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

Nonspendable

Nonspendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

Assigned

Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

INTERFUND ACTIVITIES AND BALANCES

The agency has the following types of transactions between funds:

Transfers: Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.

Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

Interfund Receivables and Payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, the balance is classified as "current." Balances for repayment due in two (or more) years are classified as "noncurrent."

The composition of the agency interfund activities and balances are presented in Note 12.

State Office of Risk Management (479)

Claims & Judgments

The State of Texas is exposed to risks of loss related to injuries to state employees. Claims are filed by state employees through the State Office of Risk Management. The State does not carry commercial insurance, but instead, uses the General Revenue Fund to account for its risk financing activities. Claims expenditures are recognized in the financial statements when payment is made to the employee. Claims liabilities are recognized when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The projected costs to the State presented in this note are based on a actuarial review of the State's Workers' Compensation Program. Accordingly, changes in the State's claims handling procedures, changes in the rate of inflation and other societal and economic factors, and changes in State law could affect the ultimate settlement of these claims liabilities.

Employee's Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. An expense and liability for proprietary fund types are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

NOTE 12: INTERFUND ACTIVITY AND TRANSACTIONS

As explained in Note 1 regarding Interfund Activities and Balances, there are numerous transactions between funds and agencies. At year-end, interfund loans are reported as interfund receivables and payables. If the repayment is due during the current year or soon thereafter, the balance is classified as "current." Balances for repayment due in two (or more) years are classified as "noncurrent."

Interfund activity at August 31, 2011, follows:

	<u>Current Interfund Receivable</u>	<u>Current Interfund Payable</u>	<u>Purpose</u>
FUND 0001:			
Agy 479, D23 Fund 0001	\$	\$ (6,273.78)	To record Collected Budget Revenue
Agy 479, D23 Fund 0001	<u>6,273.78</u>		
Total Current Interfund Receivable/Payable	<u>\$ 6,273.78</u>	<u>\$ (6,273.78)</u>

NOTE 15: CONTINGENCIES AND COMMITMENTS

Sick Leave

Each full-time employee accrues sick leave at the rate of eight hours per month with no maximum limit to the number of hours that can be accumulated. Part-time employees earn sick leave at a rate proportionate to the number of hours worked. Sick leave is paid to the employee only in the event of illness or to the employee's estate in the event of his/her death while employed by the Agency. The maximum sick leave that may be paid to an employee's estate is one-half of the employee's accumulated entitlement, or 336 hours, whichever is less. The Office's policy is to recognize the cost of any sick leave when paid. Experience indicates the probability of a material effect on any given year's operations, as a result of death or abnormally high rate of illness, is minimal.
