

Ann Berasley

Ann Berasley, Enterprise Risk Manager, is the continuity coordinator for two state occupational licensing agencies – the Texas Medical Board and Texas Board of Nursing. Over the last nine years, she has worked to continuously improve their continuity programs. Starting with the *FEMA Continuity Assessment Tool* as the foundation, Ann devised an approach and template used by both agencies for their training and exercise planning and reporting. Ann participated in the working group to revise the FEMA Continuity Plan template for non-federal agencies. She is a member of the Continuity Council Committee and serves on its Programs subcommittee.
