

Michelle Neisen

Michelle Neisen has over 25 years' experience in the fields of risk and has worked in both public and private industries. As a Certified Business Continuity Professional and Certified Cyber Resilience Professional, she has managed large Business Continuity Management programs to include leading Business Impact Analyses of over 8,000 separate business functions collectively.

Michelle volunteers her time coaching and mentoring others and earned a LinkedIn badge as a Top Emergency Management Voice. She effectively leads and motivates staff at all levels across the organization forging constructive and collaborative working relationships. While serving on the Board of Directors for the Association of Continuity Professionals, Capital of Texas Chapter, she promotes programs and opportunities for others in the industry.
